

Brushed Fabric Lamination

Polyester Fabric Lamination

Coroplast is pleased to introduce the addition of polyester laminated materials to our protective packaging product line.

Polyester laminated polypropylene sheets provide yet another cost-effective solution to our customers who need additional abrasion protection for their class "A" packaging application.

Coroplast has gone through an extensive material qualification and testing program to ensure the proper combination of process, materials and adhesion levels as well suited for our customer's packaging application needs.

*For additional information about
some of the testing performed,
